PROJECTS

RemoteRepo | **Link** | *React, Node.js, Expressjs, Paspost.js, MongoDB, Tailwind CSS*
- Developed a full-stack mern web application utilizing the GitHub API to search and view profiles, like others' profiles, share profile links, and view public repositories of other users.
- Implemented GitHub OAuth using Passport.js for secure authentication.
- Utilized React Router DOM and implemented auth-protected routes for a seamless user experience.
- Handled errors and corner cases to ensure smooth functionality.
- Created REST APIs and used MongoDB to store user data.

ChatApp | **Link** | *React, Node.js, Express.js, Socket.IO, DaisiUI, Tailwind CSS*
- Developed a minimalist chat app using Socket.IO for real-time communication.
- Implemented feature to join chat rooms by entering name and room id. Not storing the chats in any databases.

CineSearch | **Link** | *React, Tailwind CSS*
- Developed a project using the OMDB API for searching movies and series.
- Implemented pagination with the React Router DOM for a seamless user experience.

Weather Dashboard | **Link** | *React, Tailwind CSS*
- Built a project utilizing the OpenWeatherMap API for location search and real-time weather display.
- Handled geolocation-based data retrieval from REST API.

All of my projects listed at rahuldutta.netlify.app/projects
